SUMMARY

I'm a Full Stack Developer with 4 years of professional experience building fast, responsive, and user-centric web applications. My core strength lies in front-end development, where I specialize in crafting clean, modular UI components and scalable architectures using **React.js**, **Next.js**, and modern **JavaScript (ES6+)**.

In addition to my front-end expertise, I'm actively building my back-end skill set, with hands-on experience in **Node.js**, **Java**, and **Struts**. I'm focused on becoming a well-rounded developer capable of owning features end-to-end—from database to browser.

Passionate about the evolving web landscape, I'm currently exploring the integration of **AI-powered features** into modern web apps—aiming to create smarter, more dynamic, and personalized user experiences.

EXPERIENCE

06/2023 To Running

Full Stack Developer

Descartes Systems India Pvt. Ltd (WCT)

- ❖ Translated complex stakeholder requirements into scalable, high-performance web applications aligned with business goals.
- ❖ Led optimization initiatives by resolving critical bugs, enhancing performance, and introducing new features to significantly improve user experience.
- ❖ Developed advanced, reusable React components and ensured seamless integration with backend APIs and services.
- ❖ Delivered proactive client support by promptly addressing technical issues and maintaining strong, long-term client relationships.
- ❖ Collaborated closely with UI/UX designers to transform wireframes and prototypes into fully functional.
- ❖ Maintained code quality through thorough code reviews, unit testing, and adherence to modern development best practices.

09/2021 To 05/2023

Front-end Developer

Elgoss Private Limited

- ❖ Designed and developed responsive, high-performance web applications using React.js and Next.js, aligned with modern UI/UX standards.
- ❖ Translated complex business requirements and design specifications into clean, maintainable, and scalable front-end code.
- ❖ Implemented server-side rendering and static site generation in Next.js to improve SEO, performance, and initial load times.
- ❖ Built reusable and modular React components, improving development efficiency and maintainability across projects.
- ❖ Collaborated closely with design teams to convert Figma/Sketch wireframes into pixel-perfect, responsive user interfaces.
- ❖ Optimized application performance by identifying and resolving front-end bottlenecks and rendering issues.
- ❖ Ensured cross-browser compatibility and mobile responsiveness across various screen sizes and devices.

SKILLS

Web Development	HTML, CSS, JavaScript, TypeScript, React JS, Next JS
State Management	Redux, Zustand
Version Control	GitHub, GitLab, Bitbucket
Database	MySQL
Back-end	NodeJS, Express JS, Java
Project Management Tools	JIRA, AZURE
Debugging & Optimization	Code Debugging, Performance Tuning, Troubleshooting

EDUCATION

- ❖ Master in Computer Application
Dr. A. P. J. Abdul Kalam Technical University
- ❖ Bachelor in Computer Application
Mahatma Gandhi Kashi Vidyapith University

HOBBIES
